CPI Rotary Laser Level Kit

Self-levelling rotary laser with accessories (receiver, tripod/staff as supplied). Model and laser class not recorded – read the class label on the unit.

PRE-START CHECKS

- Laser class label present and legible; housing and window clean and undamaged.
- Batteries charged; receiver and remote (if supplied) working.
- Tripod legs and clamps lock; staff sections slide and lock.
- Check accuracy before critical work (e.g. two-point check at a known distance) – report errors to Foothills Hire.

HOW TO OPERATE – BASIC STEPS

1. Set the tripod on firm ground, roughly level; fix the laser on the tripod.
2. Switch on and allow the laser to self-level before use; do not bump the tripod while working.
3. Use the receiver on the staff to read levels; re-check the setup if the tilt/out-of-level warning activates.
4. Switch off before moving the instrument.

KEY HAZARDS

- Laser radiation – never stare into the beam or aim it at people's eyes, vehicles or aircraft.
- Tripod/staff tripping hazard; work near traffic or machinery.
- Conductive staff near overhead powerlines.

REQUIRED PPE

- Hi-vis on site; safety boots. Laser glasses only improve beam visibility – they are not eye protection.

REFUELLING / POWER / CHARGING

- Rechargeable batteries: charge only with the supplied charger, indoors, away from flammables; do not charge damaged packs.

STORAGE & RETURN

- Return in the case with laser, receiver, charger, remote, tripod and staff. Keep dry; transport in the case only.
- Return with all accessories supplied. Report any damage, fault or near-miss at return – do not attempt repairs.

MANUFACTURER MANUAL & SDS

- **Manual:** Manual available on request (model to be confirmed).
- **SDS:** Not applicable – no hazardous substances supplied with this item. SDS for any products you use with it (e.g. cement, paints) must be obtained from that product's supplier.

Licence / competency: No licence required. Operator must be competent and follow site laser-safety rules.

EMERGENCY: call 000 (Police/Fire/Ambulance) • Poisons Information 13 11 26 • Breakdown or help: see the Contact page at foothillshire.com.au • Site first aider / supervisor: _____

IMPORTANT – READ BEFORE USE. This sheet is a summary only and does not replace the manufacturer's operator manual. The hirer must read, understand and follow the manufacturer's manual and all warning labels before use, and must ensure every operator is trained, competent and – where required – licensed for this equipment and task, as required by the Work Health and Safety Act 2020 (WA) and the Work Health and Safety (General) Regulations 2022 (WA). Do not use equipment that is damaged, untagged or out of inspection date – stop and contact Foothills Hire. Foothills Hire is a business name held by Foothills Industries Group Pty Ltd, ABN 38 688 848 302.
